

TOP ADVANCED MICRO-CLEAN TECH

99.9% ANTIVIRUS GENTLE CARE DETERGENT

Surfactants Identified

- Linear Alkylbenzene Sulfonate (LAS)
- Alcohol Ethoxylate
- Cocamidopropyl Betaine (boosts softness & reduces skin irritation)

Formulation

- Anionic + non-ionic surfactants
- Includes enzymes for stain breakdown and fragrance
- pH-balanced formula suitable for both hand wash and machine wash.

STAY FRESH, STAY PROTECTED

Function & Properties

- Deep Cleaning Power (breaks down tough stains and grease)
- Antivirus Technology (helps eliminate 99.9% of viruses and bacteria)
- Gentle Care Formula (protects fabric color while remaining skin-friendly)

Usage Guidelines

- Use 1 cap (35–40ml) for a normal load;
- Suitable for top and front load machines.
- Rinse thoroughly for best results.
- Store in a cool, dry place away from sunlight.

Advantages	Disadvantages
Gentle on hands and clothes	Slightly more expensive than basic detergents
Provides long-lasting freshness	May cause mild irritation for extremely sensitive skin
Eco-friendly formulation with less residue	High foam may require more water to rinse
