

Proposal Outline

1. Topic Selection
Convenience Store – Family Mart
2. Problem / Issue (2 points)
 - long queues and limited staff during peak hours cause slower service
 - lack of real-time stock updates causes customer always couldn't buy what they want
 - no own delivery platform, forcing customers to rely on third-party apps with extra charges
3. Solutions (2-3 points)
 - implement self-service kiosks for quick ordering to reduce queues and minimize staff workload
 - real-time stock tracking to monitor inventory and restock popular items efficiently
 - develop a delivery feature in own app and website to allow direct meal delivery to customers' doorsteps
