

Logbook

Date	Search Keywords	AI Prompts Used	Task Description
16 April 2026	None (Brainstorming)	Suggest an academic writing paper title based on Cloud Computing-AWS.	Brainstormed AWS topics with Gemini. Selected the final title: <i>"AWS EC2 vs. On-Premise Servers: A Comparative Analysis of Elastic Scaling Performance for Dynamic Web Workloads."</i>
16 April 2026 - 18 April 2026	"AWS EC2 auto-scaling performance Scopus", "EC2 vs on-premise scalability comparison"	None	Searched through Google Scholar and UTM Library portal and Scopus for academic papers. Partially read through to get some idea. 
18 April 2026	Academic Writing Planning	Ask how should I start my paper in a better way.	Write Introduction.
18 April 2026	AWS Cloud and AWS EC2 Architecture	What is AWS Cloud EC2 and how it actually works.	Search and understand the AWS Cloud. The architecture, key performance and example.
19 April 2026	AWS EC2 architecture, Netflix AWS case study	Cite them into this text... using the APA 7th Edition citation style	Read the abstracts and introduction of the best papers. Start academic writing content while citing paper I have read before into specific sentence.

20 April 2026	AWS Cloud	None	Proceed to section II and at the same time integrate references into Section II.
21 April 2026	On-premise infrastructure healthcare data sovereignty	Add details explaining where on-premise servers are used like KPJ hospital	Proceed to Section III overview and integrated a localized Malaysian context case study (KPJ Healthcare & government agencies)
22 April 2026	AWS EC2 vs on-premise scaling performance trade-offs	What is the main difference between both infrastructure	Proceed to the Section IV structural comparison table and wrote the critical analysis regarding the elasticity gap.
23 April 2026	Hybrid cloud architecture benefits	Give me an idea how should I write an non-biased conclusion	Proceed to conclusion, proposing a balanced hybrid cloud framework as the optimal solution.
18 May 2026	None	None	Try to improve my academic paper and make some changes and updates.
